

Business Owner COVID-19 Relief Programs Summary and Resources

As you know, we have been trying our best to facilitate the most recent and current information regarding the Coronavirus through emails and our website but, as you know, every day brings changes.

I was on a call with UBS and they laid out a very nice summary/overview of the Relief programs that I thought I would share with you....

[Business Owner Coronavirus Relief Programs At A Glance >>>](#)

A few key observations brought forth...

1. There is no better time, than now, to adopt a continuous and regular business planning cycle that keeps your business plan up-to-date (Date Planning)
2. Review a financial appraisal showing where you stand and what you need to look at in order to figure out how to successfully move forward (Stress Test).
3. And, finally, if you haven't already done so, talk with the appropriate personnel, both within and outside your organization, to ensure your understanding of these options and be sure to apply for the appropriate loan(s).

Also, here is a link to a very good listing of COVID-19 resources and upcoming webinars that have been offered by our general counsel, Barbara Dunn, and her firm, Barnes & Thornburg.
