

Get Started with the RepFiles NEMRA App

1

Download the RepFiles NEMRA App

The RepFiles NEMRA Edition app is free to download on Android, iOS and Windows 10 devices.

2

Register & Sign-in

Open the app to the sign-in or register screen. Click on the link to register if you do not have a RepFiles account, then sign-in to the app.

3

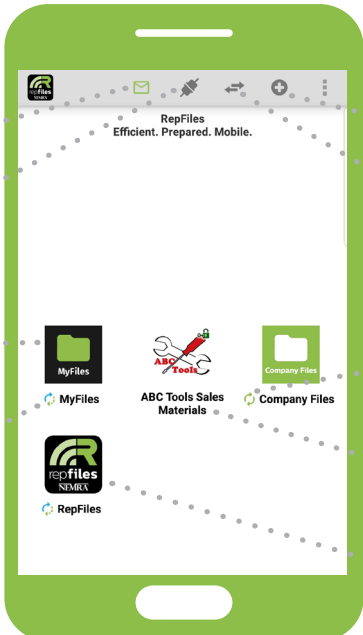

Request Access

Select **Add New** (or the plus icon) located in the main screen menu. Select a plugin with a red lock to request access. You will receive an email notification when the manufacturer approves your account. The plugin will then appear on the app's main screen with a green lock. (If a plugin does not have a red lock, you do not need to request access and can install it immediately.)

4

Install & View Content

Select the plugin to install it, then follow the prompts to choose the plugin's sync mode.

Messages
Get notified of content updates & other news.

Online/Offline
Control whether the app is connected to the internet.

MyFiles
All users can upload & manage their own content. (Available on the Add New screen.)

Plugin Set to Partial Sync Mode
When plugin is synced, the app checks for updates made to downloaded files. Files not previously downloaded will remain in the cloud for online viewing only.

RepFiles
Contains info about the RepFiles app.

Authorized Plugin
Once approved, plugins appear on the main screen with a green lock. Select to install.

RepFiles Plugin
Contains info about the RepFiles app.

Add New
Request access to manufacturers' plugins or install public plugins.

Sync
Sync all installed plugins to ensure all downloaded files are up-to-date.

Plugin Set to Sync All Mode
When plugin is synced, the app checks for updates made to downloaded files AND downloads any new files to your device.
