10% | Point of Sale and Spec Credit | Overage

Additional Information:

Phoenix Lighting designs and manufactures heavy-duty lighting for the mining industry’s harshest environments and provides innovative, durable fixtures that are built to last and supports them with technical expertise and outstanding customer service. With over 75 years of industry experience, Phoenix’s LEDs decrease maintenance costs, extend safety initiatives, and light the way to greater productivity.

Phoenix’s new technologies for better visibility are made for the entire mine site – you’ll find Phoenix

lights on large AC equipment, mobile DC equipment, hazardous locations, haul roads, conveyor belts and infrastructure.

Phoenix pioneered the introduction of high-powered LED floodlight technology in the mining industry and is the OEM standard for Komatsu and Caterpillar electric-rope shovels. Phoenix can offer an unmatched level of dedication and support to our partners. We stand by our Durability by Design® promise and guarantee our products and results.
