Hoover Dam Classic Jeep Tour
Wednesday 1/31/24, 8:30–12:30 PM PST

Gaze out over 6.6 million tons of ingenuity and innovation on this guided Hoover Dam Tour from Las Vegas. Built during the Great Depression, the Hoover Dam stands as a tribute to American ambition, vision, and grit during a time of great adversity and hardship.

On this Hoover Dam Tour, you'll get remarkable views of one of the Seven Wonders of the Engineering World. Standing over 725-feet tall and built to last 1,000 years, the dam is a National Historic Civil Engineering Landmark.

Your Adventure Tour Guide will pick you up at The Virgin Las Vegas Hotel in a luxury tour trekker with leather captain's chairs and oversized windows. Learn about the geography, geology, plants, and animals of the Mohave Desert. Hear accounts of early mining in the area and building housing for dam workers.

Peer into the past with your visit to the Boulder City/Hoover Dam Museum and meet the men and women who braved the Nevada desert to settle a city. Stand on top of the Michael O'Callaghan—Pat Tillman Bridge, 900-feet above the Colorado River, to see the dam holding back Lake Mead.

At Hoover Dam, you'll walk atop an engineering marvel, view the spillways, and visit the Winged Figures of the Republic. Head to the Observation Deck for 360-degree views of the Colorado River and Lake Mead and enjoy free time at the Gift Shop. There are many Hoover Dam tours but only one way to see it like this!

*\$175.00 per person inclusive of box lunch, for the 4-hour tour.
Reserve within your registration.
