

VETO PRO PAC®
TOOL BAGS THAT WORK

established in 2002

The idea of Veto Pro Pac began in the 1980's when founder, Roger Brouard, knew he needed a tool bag that worked.

Roger was building wooden lobster boats in Maine, then moved to NYC to continue his contractor trade when he began designing the first Veto Pro Pac tool bag. After many prototypes and years of work, the XL bag was born. From there, Veto Pro Pac has never looked back and has continued to lead the market in high-end, functional tool bags.
