## Automated Submittals

## Strengthen Your Position in the Value Chain

Elari Solutions helps lighting agents conduct business through an intelligent platform that unites everyone on a single network. By standardizing product data and eliminating fragmented workflows, teams can execute faster and win more business.

### Key Capabilities

- Effortless Schedule Extraction:** Leverages proprietary AI and OCR technology to efficiently process and organize unstructured product schedules.
- Part Number Matching:** Automatically associates over 80% of schedule part numbers to manufacturer spec sheets for seamless specification.
- Line Card Management:** Standardizes and manages product data across all lines, enabling rapid product search, specification, and confident decision-making.
- Integrated Configurators:** Quickly create complete part numbers using order-option configurators for all products on your line card.
- Schedule Crossing:** Simplifies finding alternates, creating side-by-side comparisons, and exporting quote-ready details.
- Automated Submittals:** Speeds up submittal creation with access to the latest manufacturer spec sheets and line product configurators.
- Seamless Data Integration:** Exports data in formats that fit existing workflows, including Excel, Agile XML, and API integration for custom website experiences.
- Actionable Intelligence:** Delivers insights from product search, specification, and crossing activity to create a competitive advantage.
- Agent-Centric Solutions:** Strengthen agents' roles with tools that enhance their expertise.

**"Elari Solutions streamlines workflows and empowers NEMRA Lighting Agents to execute faster, strengthen relationships, and win more business with AI-driven insights."**
